

## Non-flammable compressed gas

NF incombustible gas is classified as non-flammable, however, its vapours may show flammability in elevated temperatures. It is recommended to not exceed ambient temperature of 28°C when using with live electrical devices.

Physicochemical properties	
State of matter	gas
Color	transparent
Odor	no unpleasant smell
Water	do not contain
Density at 20°C	1,2 g/cm <sup>3</sup>
Pressure at 20°C	420 kPa
Flash point	> 750°C
Flow rate	17g/10s
pH	neutral
Solubility in water	1,5 g/l

### Application:

- electronics,
- audio-video,
- precision mechanics,
- electromechanics.

### Packagings:

Volume	Type of packaging	Collective packaging	Item Code
200 ml	aerosol	4/12	ART.AGT-255

### Warehousing:

Store in sealed containers in dry and well ventilated areas away from sources of heat and ignition and direct sunlight. Do not expose to temperatures exceeding 50°C/122°F. Protect against electrostatic discharges.
